AN ALMOST REALISTIC TIMELINE OF UNDERGRAD AT KING’S

4. SEMESTER 4 - 5
You’ll probably have joined King’s Club by this point - growing from their belief that no idea is too crazy. Designing and executing the craziest and most fun activities in the college becomes a daily thing.

5. SEMESTER 6
You’ve seen the world and understood its problems by now. You want to do something about it. Join DoLab and apart from getting your mind blown to tiny little pieces, learn how you can approach problems to build better solutions. Maybe even join King’s Incubator if you think your solution is really worth it.

6. FINAL FEW MONTHS
Made it through all your papers? Still sane? Still have hair left on your head? Good. Assuming you got a job or an internship, you’ll rip your hair out writing a report on it. Or, you write a research paper. Either way, you end your 8th semester with teary eyed goodbyes and a lifetime’s worth of memories.
1. **ENROLLMENT**

Start with fun and games. Get to know some really cool people and some okay-ish people. Get a glimpse of what we call “babal” and learn how the continuous assessment system works.

2. **SEMESTER 1**

Question your decisions. Try not to lose your head figuring out assignments. Then realize that your assignments allow discussions and application of ideas you learn.

3. **SEMESTER 2 - 3**

You kept your cool through all the fun and all the confusion. Now dive right into the action with the Community Service Learning Program (CSLP) and spend some time exploring the community.

*Learn more about DoLab, CLSP, King’s Incubator and other Centres @ King’s in pages 9 - 15*

*Imagine you hate rollercoasters. Imagine you are in one. Imagine you are actually enjoying it. Chaotic yet awesome. That’s what King’s is like.*

- Pujan Shiwalakoti (Student - BBA)
AN ALMOST REALISTIC TIMELINE OF MBA AT KING’S

**3. TRIMESTER 2 - 3**
If you thought MBA was just a two hour class in the morning, by now you will realize you were wrong. Specially with the Professional Development Courses, MBA becomes more than a class - it becomes a part of your everyday life.

**4. TRIMESTER 4 - 5**
By this time, you might feel you want to change something in the world. Join DoLab to understand and solve problems in an interdisciplinary team.

**5. THE FINAL MONTHS**
2 years have gone at the blink of an eye, but when you look back it has been a babal time - not only because of the learning but also because of the people you have met along the way.
1. ENROLLMENT
Get a glimpse of how two years of your life will be with the incubation classes. Get familiar with the faculty members and find people you can really connect with.

2. TRIMESTER 1
Dive head first into what we call the “babal” way of learning. It is not just about the books and the discussions - learning makes sense when you get your hands dirty. But try not to lose your head as you are challenged to question everything you think you know.

Angel Poudel
(Student - MBA Entrepreneurship)
As a veterinary graduate, the transition to managerial classroom environment has been comfortable at King’s College. The support from the faculty members as well as my classmates has been a great experience.

- Serene Amatya
(Student - MBA Agribusiness)
THE FUN
THE ENGAGING
AND THE CHALLENGING

KNOWLEDGE CREATION

INNOVATION AND ENTREPRENEURSHIP

EMPOWERMENT AND MENTORSHIP
COMMUNITY SERVICE LEARNING PROGRAM (CSLP)

CSLP is a College - Community initiative inspired by the King’s educational philosophy and model called “Community as Curriculum”.

- Develops readiness to solve social problems
- Develops empathy and civic responsibility

The reason I chose King’s was for its unique programs and values. It has nurtured my authenticity and helped me move forward. MBA Nonprofit has enhanced my learning in applying the entrepreneurial approach in social sector.

- Anamika Silwal
  (Student - MBA Nonprofit)
DOLAB
Do Lab is an innovative pre-incubator program designed in collaboration with Oamk LABs, Oulu University of Applied Sciences (Finland) that focuses on entrepreneurial mindset by working in interdisciplinary teams.

- Engagement with Community
- Human Centered Design
- Creative Problem Solving
- Learning from Mistakes

Being surrounded by all these creative people at King’s has helped me think in new ways.
- Bridhi Gautam
  (Student - BBA)
CENTER FOR RESEARCH AND DEVELOPMENT (CERAD)

CERAD is a research wing of King’s College dedicated to knowledge-creation on entrepreneurship studies. Every year, the center disseminates scholarly works by organizing Nepal Entrepreneurship Forum and publishing International Journal of Entrepreneurship and Economic Issues.

EMPOWERMENT ACADEMY
As a communication and empowerment wing, Empowerment Academy works to empower students and teachers by helping them around the “4CR” skills. The academy also provides workshops and training sessions for students beyond the college as a part of the college’s mission to promote collaboration.

- Communication
- Collaboration
- Creativity
- Critical Thinking
- Reflection

5 Team members
4655 Students, teachers and professionals reached
300+ Workshops around Nepal
MENTORSHIP PATHWAY

Mentorship Pathway at King’s is dedicated to the emotional development of students through Life Coaching.

KING’S CLUB

King’s Club is a student led initiative that organizes a variety of activities based on the diverse interests of the students.
Perhaps I am of an older age group among students at King’s College, but I still feel the environment makes me feel empowered and at home. All my peers at the campus are affectionate and I feel nostalgic and 15 years younger. The learning experience has been very unique.

- Yadu Kumar Uprety (Student, MBA Agribusiness)
Everyone was frank and gave me their time and support whenever I was in need. I used to go to the staff room almost everyday to learn and interact with the faculty members after the classes were over. And oh, the table-tennis board in the canteen was an ice-breaker to me. I got to interact with so many fellow students when I was waiting for my lunch.

-Dipesh Khanal (Alumnus, MBA)
OUR FRIENDS AROUND THE WORLD

- Hebei University of Economics and Business, China (Students Exchange, Scholarship)
- Beijing International Chinese College, China (Students Exchange, Scholarship)
- National Central University, Taiwan (Students Exchange, Scholarship)
- Yunus Center, Bangladesh (Research & Student Internship and Knowledge Transfer with 41 Yunus Social Business Centres around the world)
- TATA Institute of Social Science, India (Research Collaboration and Student Internship)
- 3A School of Business and Development, France (Student Exchange)
- Oulu University of Applied Science, Finland (Increasing University Capacity as a part of the BUCSBIN Project)
- Labitrie School, Tournefeuille, France (Student and Faculty Exchange, Joint Community Projects and Joint Research)
- Toyo Gakuen University, Japan (Joint Research and Student Exchange)
- Demola Global, Finland (Bringing together students and the industry through Demola Global Concept)

2+2 PROGRAM

Undergrad students who complete the first two years at King’s College can directly transfer 60-70 credits to State University of New York (SUNY) - Albany and California State University (CSU) San Marcos, CSU Monterey Bay, CSU Fresno and City University of New York (CUNY) for the remaining two years and complete their program.
